

# Corvus by Travelers offers insurance solutions to help manufacturers combat cyber risks

The manufacturing sector is the lifeblood behind a functioning economy and ransomware is a growing threat in the industry. Despite the current threat landscape, we’re offering broad policy language, competitive terms and endorsements **made** with manufacturers in mind.

## Desired Sub-Classes

- Food Manufacturing
  - Apparel Manufacturing
  - Contract Manufacturing
  - Electronics Manufacturing
- Wood Product Manufacturing
  - Metal Product Manufacturing
  - Petroleum and Chemical Manufacturing
  - And many more...

## Appetite

- Primary risks earning up to \$5B in gross annual revenue
- Excess risks earning up to \$5B in gross annual revenue
- Limits up to \$10M

## Coverage Offerings

### Manufacturing Industry Specific System Coverage

Coverage is extended to specific types of computer systems and software commonly used in the manufacturing industry: MES, CMMS, SCADA, WMS

### Contingent Business Interruption (BI) Coverage: Including Material & Part Suppliers

Coverage extends to losses from stalled raw materials if physical suppliers encounter a cyber incident, as well as traditional contingent BI coverage.

### Alternative Production Run Costs

Coverage to help address the expense of contractors to get the work done while you’re offline.

### Invoice Manipulation (including tangible property)

Coverage typically applies to money lost due to unauthorized access of the insured’s computer system, but may also help cover the value of any products wrongfully shipped due to invoices manipulated through social engineering.

### Utility Fraud

Coverage for utility overages incurred as the result of unauthorized and illegal use of an organization’s various utility services or resources such as electricity, water, natural gas, internet access, telecom, etc.
